

8/10/21

Greetings to the entire Complete Care Linwood family.

Unfortunately, we remain in outbreak status with Covid-19. Both patients/residents and staff are still testing positive. We are in communication daily with the department of health and following their directions. We are using full transmission-based precautions and necessary PPE to prevent the spread of this disease. Our vigilant administration and managers continue to do rounding, educating, and inspecting throughout each day with hopes of using our reopening plan when appropriate. We had to limit for now group activities, communal dining, and maintaining everyone in their rooms as much as possible. Please also note visits are very limited but we are offering video chats, window visits, and arranging phone calls if needed through our activities department.

Please reach out if you have any more questions at 609-927-6131

Stay safe, Best regards,

Patricia Hedeman, Administrator
